Hello I'm in your lectures for the above course and I have finished all of the exercises on the lab sheet one, not just the 'Tickables' though as I have used the lab sheet as a way to make notes for myself for later use in Python by working through it all using comments and well as feedback on what the program is doing whilst running and I just wondered would you be able to take a look through it? Thanks

Hi Joe,

This sounds great, well done.

First of all make sure you show your tickables to your tutor in your first lab session.

I'd be very happy to look through it all with you, could you come by my office during office hours on Thursday?

In the meantime feel free to start the next set of sheets if you'd like to.

Thanks,  
Vince
